STATEMENT BY SUTHERLAND

#### BANKERS AND MERCHANTS.

We, the undersigned, after reading the articles appearing in the different newspapers, feel that in justice to Sutherland and ourselves, the following statement of facts should be given to the public.

After conferring with some of the business men of Sutherland, Geo. C. White, G. O. Gordon, C. A. Lau and W. J. Root went up to Tryon to confer with Mr. Dunn, the editor of the Tryon Graphic, with the idea of trying to get Mr. Dunn to buy out the Sutherland Free Lance.

For some of the following reasons the people felt that a change in the newspaper would be for the benefit of Sutherland. At the time the First Liberty Loan Bonds were offered for sale, one of the above parties who went to Tryon, requested the present editor of the Free Lance to publish on the front page of his paper a cut advertising the Liberty bonds, which was furnished them by the people who furnish their advertising. The editor was not asked to publish it as an advertisement for any bank, but with the name of both banks as the places where the bonds could be purchased, and was even asked to use the cut on the front page without any names attached, and receive full advertising rates for same, but refused to do so.

When the Sutherland high school paper was to be printed it was taken to our local editor who refused to publish it, and it was consequently taken to Hershey and published there. We believe this business should have staid in Sutherland.

Little or no publicity was given to the Red Cross work or the Red Triangle drive, which matter, we understand, was furnished free of charge, to such papers as would print it.

As it was understood that the present newspaper plant was for sale, this fact being brought home to us by the editor himself, and knowing that Mr. Dunn had tried to purchase the plant last summer, we, in our desire to help the editor secure a purchaser, and, at the same time, secure for our town a live newspaper man, went to Tryon to try and get Mr. Dunn interested in the purchase of the Suther-

land paper. No attempt whatever was intended to in any way boycott anybody, or to try to force anybody to sell below the value of their plant, there was no intrigue. Our interest was mutual in trying to secure a purchaser for Mr. Reynolds for his plant at the full value, and to secure for ourselves the kind of a newspaper man that we think Sutherland is entitled to.

A meeting was called and a large number of the business men were present. Nobody present attempted to set a price on Mr. Reynolds plant, nobody had any ill feeling whatever against Mr. Reynolds personally, and the proposition as finally put up to Mr. Dunn was, that if he could purchase the plant from Mr. Reynolds the business men represented there would back him in the proposition.

We, the undersigned, certify the above to be the facts in the case. Signed: W. J. Root, A. B. Yates, G. O. Gordon, M. C. Long, E. W. Coker, G. L. Buddin, G. C. White, Frank Coates, C. G. Lau, P. N. McKinley, W. V. Vanarsdall.

Economy! A big word in war time. Don't waste money on useless trifles. Buy that Player-Piano, the enduring gift. W. R. Maloney Co.

#### -1:0:1-The Right of Forfeiture.

Senator James Hamilton Lewis has presented a bill before Congress, proposing that the citizenship papers be taken away from disloyal naturalized if citizens of the United States and for the sending of these people back to the countries from which they came.

If the national legislature enacts this law it will be a fitting occasion to prevent people apparently unable to appreciate citizenship in the United ? States from gaining such status in this country; and of ridding us of "conscientions objectors," who by their voice and actions endanger the peace and prosperity of the nation, who impede the progress of preparation for this war of democracy, and who try to create public opinion against the government and incite the people against pecuniary responsibility and military necessity which consists in the urgency of those measures which are indispensible for securing the quick termination of the war.

The people of this country collectively and distributively must learn that citizenship is a pearl of too great a price as to be despised, dishonored and treaded upon.
